

Stage 1 - Find a Building Site

We'll search the web to locate the perfect building site or we'll build on your lot.

Stage 7 - Start Construction

Verify location of home with surveyor, pull permits, & begin construction.

Stage 2 - Site Evaluation

We'll perform a Site Evaluation to determine suitability and site estimates.

Stage 8 - Framing Inspection

Meet at Building Site & review electrical, HVAC, plumbing locations & room layouts.

Stage 3 - Design Your Home

We'll help you design your floor plan, elevations, & optional features to fit your budget

Stage 9 - Weekly Updates

You'll be contacted weekly for updates on job status and time frames.

Stage 4 - Full Disclosure Pricing

We'll provide Full Disclosure pricing and scope of work to be completed.

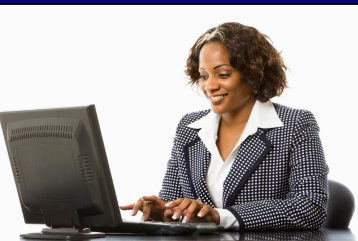

Stage 10 - Close & Move In

Create final punch list, coordinate closing date and Move-In to your NEW home!

Stage 5 - Secure Financing

We'll work with your lender or ours to assist with construction & end loan financing.

Stage 11 - 30 Day Punch List

After living in your home for 30 days,, we'll return for any required repairs.

Stage 6 - Finalize Details

We'll perform a Pre-Construction Conference (PCC) to review contracts & details.

Stage 12 - 1 Year Drywall Repair

At your 1-year anniversary we'll take care of any drywall stress cracks and caulking.
